Products**

## ABOUT NATIONAL GREEN PRODUCTS

National Green Products is the manufacturer's distributor for the USES<sup>®</sup>, Universal Shunt Efficiency System. Our technology is UL, CSA, CE and GSA verified and has been installed in facilities around the world for over 28 years.

## ADVANTAGES

Reduce Carbon Footprint Per Mandates  
Reduce Electrical Costs Per Mandates  
Reduce Demand and Consumption  
Reduce Harmonic Distortion  
Increase Power Quality & Condition  
Prolong Equipment Life  
Increase Power Factor  
Provide Surge and Spike Protection  
Meet Facility Monitoring Mandates

The patented USES<sup>®</sup> technology is a dynamic, maintenance free, resonance free, magnetic field induction system that reduces kW demand, kWh consumption through five methods, along with two forms of surge protection:

- \* Kw Power Generation
- \* Magnetic Phase Balancing
- \* Passive Resonance Free Power Factor Correction
- \* Transient Energy Conversion
- \* Harmonic Filtering of Non-Power Current

## SATISFIED CUSTOMERS

**USS Missouri Battleship Memorial**

**U.S. Coast Guard**

**U.S. Naval Hospital**

**U.S. Embassies**

**Federal Courthouse**

**Department of Homeland Security**

**GSA Heating Operation & Transmission**

**U.S. Postal Service**

**U.S. Corps of Engineers**

**U.S. Marine Corps**

## GSA Information

Contract Owner
